*Adult Supportive Services: Serving clients without the need for skilled care when the care of a paraprofessional could mean they can remain in their homes safely and cost effectively.*

- Nurse's Aide – for bathing, grooming, hygiene, transferring, toileting and other personal care needs
- Companions Care – to help with light housekeeping, meal preparation, errands, transportation, grocery shopping and recreational activities
- Dementia Care – to provide safety and personal care to clients with moderate to advanced levels of dementia
- Respite Care for the Family – to provide rest for family caregivers during emergencies or for vacations
